IOSCO's Mission, Goal and Priorities with David WRIGHT Secretary General at IOSCO

Since the financial crisis, IOSCO reformulates its mission, aim and amends to take into account the changed circumstances and the lessons : developing, implementing and promoting adherence to internationally recognized and consistent standards of regulation, seek to address systemic risks, strengthened information exchange and cooperation in enforcement against misconduct and in supervision of markets and market intermediaries, etc...

Register

Program

David Wright will explain to us how to endorse IOSCO's operational goals and priorities through building an independent research capacity to identify risks to the fair and efficient functioning of markets, liaising with other international financial standard setters and other global bodies having a mission complementary to that of IOSCO in order to address systemic risks. Mr. Wright will also discuss about developing international standards, including those aimed to deal with emerging risks, the full implementation of the IOSCO MOU and strengthening communications with stakeholders, in particular the investors and bodies representing the industry.

David WRIGHT is responsible for leading the work of IOSCO's General Secretariat in support of the work of the organization since March 2012. Mr. Wright has been a senior advisor to the European Commission during the financial crisis and his most recent position has been as a member of the Commission's Task Force on Greece which is helping define and deploy a major technical assistance programme for Greece. During his 34 years working for the European Commission at the highest levels of the European Unions' political and regulatory system, Mr. WRIGHT had key roles in designing and finding political agreements on the major European securities legislation such as MIFID and the Transparency, Prospectus and Market Abuse directives and acting as rapporteur on the De Larosière Committee on financial services reform.
